This form is used to help the VMA confirm your donation for the company providing the matching funds. It will also be used to connect matching funds received with the correct student's individual fundraising goal. Please be aware that the matching donation process usually takes several months and will not show up on your fundraising statement until the matching funds have been received by the VMA. Some companies take out a processing fee before they send the matching donation to the VMA. If this is the case with your donation, the amount you donated and the matching amount you see on your fundraising statement may differ by the amount of the processing fee.
